④ 前 BB 小	* □ *

2) Choose the installation package and upload it.

**Note:** ①. The indoor station only supports **no more than** 5 APPs.

②.The total 5 apps flash memory resources should be **less than** 1 GB, the total RAM should be less than 500MB, total CPU should be less than 30%, or the overload data would be clear.

③.The google service is not supported.
