- Other trademarks and logos mentioned are the properties of their respective owners.

Disclaimer

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THIS MANUAL AND THE PRODUCT DESCRIBED, WITH ITS HARDWARE, SOFTWARE AND FIRMWARE, ARE PROVIDED "AS IS" AND "WITH ALL FAULTS AND ERRORS." HIKAUTO MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY, SATISFACTORY QUALITY, OR FITNESS FOR A PARTICULAR PURPOSE. THE USE OF THE PRODUCT BY YOU IS AT YOUR OWN RISK. IN NO EVENT WILL HIKAUTO BE LIABLE TO YOU FOR ANY SPECIAL, CONSEQUENTIAL, INCIDENTAL, OR INDIRECT DAMAGES, INCLUDING, AMONG OTHERS, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, OR LOSS OF DATA, CORRUPTION OF SYSTEMS, OR LOSS OF DOCUMENTATION, WHETHER BASED ON BREACH OF CONTRACT, TORT (INCLUDING NEGLIGENCE), PRODUCT LIABILITY, OR OTHERWISE, IN CONNECTION WITH THE USE OF THE PRODUCT, EVEN IF HIKAUTO HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSS.

YOU ACKNOWLEDGE THAT THE NATURE OF INTERNET PROVIDES FOR INHERENT SECURITY RISKS, AND HIKAUTO SHALL NOT TAKE ANY RESPONSIBILITIES FOR ABNORMAL OPERATION, PRIVACY LEAKAGE OR OTHER DAMAGES RESULTING FROM CYBER-ATTACK, HACKER ATTACK, VIRUS INFECTION, OR OTHER INTERNET SECURITY RISKS; HOWEVER, HIKAUTO WILL PROVIDE TIMELY TECHNICAL SUPPORT IF REQUIRED. YOU AGREE TO USE THIS PRODUCT IN COMPLIANCE WITH ALL APPLICABLE LAWS, AND YOU ARE SOLELY RESPONSIBLE FOR ENSURING THAT YOUR USE CONFORMS TO THE APPLICABLE LAW. ESPECIALLY, YOU ARE RESPONSIBLE, FOR USING THIS PRODUCT IN A MANNER THAT DOES NOT INFRINGE ON THE RIGHTS OF THIRD PARTIES, INCLUDING WITHOUT LIMITATION, RIGHTS OF PUBLICITY, INTELLECTUAL PROPERTY RIGHTS, OR DATA PROTECTION AND OTHER PRIVACY RIGHTS. YOU SHALL NOT USE THIS PRODUCT FOR ANY PROHIBITED END-USES, INCLUDING THE DEVELOPMENT OR PRODUCTION OF WEAPONS OF MASS DESTRUCTION, THE DEVELOPMENT OR PRODUCTION OF CHEMICAL OR BIOLOGICAL WEAPONS, ANY ACTIVITIES IN THE CONTEXT RELATED TO ANY NUCLEAR EXPLOSIVE OR UNSAFE NUCLEAR FUEL-CYCLE, OR IN SUPPORT OF HUMAN RIGHTS ABUSES.

IN THE EVENT OF ANY CONFLICTS BETWEEN THIS MANUAL AND THE APPLICABLE LAW, THE LATTER PREVAILS.

B Regulatory Information

FCC Information

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Compliance: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Conditions

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

The equipment should be installed and operated with a minimum distance of 7.9 in (20 cm) between the radiator and your body.

EU Conformity Statement

CE This product and, if applicable, the supplied accessories too are marked with "CE" and comply therefore with the applicable harmonized European standards listed under the RE Directive 2014/53/EU, the EMC Directive 2014/30/EU, the LVD Directive 2014/35/EU, and the RoHS Directive 2011/65/EU.

2012/19/EU (WEEE Directive): Products marked with this symbol cannot be disposed of as unsorted

municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it at designated collection points. For more information, please see: www.recyclethis.info.

B Regulatory Information (continued)

2006/66/EC (Battery Directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union.

See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cadmium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information see: www.recyclethis.info.

Industry Canada ICES-003 Compliance

This device meets the CAN ICES-3 (B)/NMB-3(B) standards requirements.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. this device must accept any interference, including interference that may cause undesired operation of the device. Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radioexempts de licence. L'exploitation est autorisée aux deux conditions suivantes
 1. l'appareil ne doit pas produire de brouillage, et
 2. l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Under Industry Canada regulations, this radio transmitter may operate only using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

Cet équipement doit être installé et utilisé à une distance minimale de 20 cm entre le radiateur et votre corps.

C Packing List

- | | |
|--|--|
| 1 Dashcam x 1 | 4 Electrostatic Sticker x 1 |
| 2 Rear Camera x 1 and Connector Cable x 1 | 5 3-Lead Hardware Kit Power Cable x 1 |
| 3 Accessory Package x 1 | 6 User Manual x 1 |

D Parts Introduction

- 1** 3M Adhesive Pad
- 2** Parking Mode Indicator
- 3** Lens
- 4** Mini-USB Port for Connection to Computer for Data Transfer and 4G Module Connection
- 5** Micro-USB Power Cable Port for 3-Lead Buck Line Connection
- 6** Rear Camera Port
- 7** Microphone
- 8** MicroSD (TF) Port
- 9** Speaker
- 10** LED Indicator
 - Solid Red: Power on
 - Solid Blue: Working properly
- 11** Reset Button

Figure 1, AE-DC8322-G2PRO Front View

Figure 2, AE-DC8322-G2PRO Rear View

E Install

Figure 3, Apply Electrostatic Sticker

Clean the windshield and paste the electrostatic sticker onto the windshield.

NOTE: The electrostatic sticker prevents residual marks and allows window cleaning and dashcam repositioning.

Avoid introducing air bubbles. DO NOT reapply the film repeatedly.

Figure 4, Route Cable to Fuse Box

Paste the device onto the electrostatic sticker and route cable to the fuse box for power.

Figure 5, Connect Power Cord

Connect the power cord as per the above figure.

Figure 6, Adjust Dashcam Angle

Adjust the angle to the target direction.

F Install Rear Camera (continue)

Interior Mounting

- 1 Peel off the adhesive release paper on the camera bracket. Install the camera onto the top center of the rear window (interior side) so that it points directly at the road.
- 2 Connect the camera to the front dashcam by routing the cable as per the following diagram:

Figure 7, Rear Camera Interior Cable Run

Figure 8, Rear Camera Interior Placement on Rear Windshield

G Mobile Phone Connection

- 1 Scan the QR code to download and install the HikDashcam app to your mobile phone.

Figure 9, Scan QR Code for HikDashcam

- 2 Add the dashcam to the app.
 - a. Run the HikDashcam app.
 - b. Tap Wi-Fi Connection.
 - c. In the Wi-Fi list, select the target dashcam's Wi-Fi SSID and enter the Wi-Fi password to establish a connection.
- 3 Edit the dashcam password to activate to avoid abnormal recording after connecting the Wi-Fi.

i Dashcam Wi-Fi default parameters:

- Wi-Fi SSID: HIKVISION-xxxx (xxxx refers to the last four verification code characters).
- Wi-Fi password by default is 1234567890
- Create a new password after first login.

H Basic Operations

Start Up/Shut Down Manually

Press and hold the power button for three seconds to shut down the dashcam. Press the power button to start the dashcam.

Recording

Recordings are divided into regular videos and emergency videos. You can set the video voice on/off through the system settings or the HikDashcam app.

Voice Control

The dashcam automatically activates voice control upon startup. Perform any of the following commands just by saying the phrase out loud:

- "Snapshot"
- "Recording On"
- "Recording Off"

Parking Mode

The AE-DC8322-G2PRO DashCam automatically goes into parking mode when the automobile engine is shut off (only if using a three lead buck line cable connected directly to the fuse box) and the dashcam continues to record at 1 fps.

Firmware Upgrade

Step 1: Run the HikDashcam app.

Step 2: Connect to the dashcam you would like to upgrade.

Step 3: Tap the **Upgrade** button to upgrade the firmware.

AE-DC8322-G2PRO**Camera**

Image Sensor	CMOS
Resolution	2160p @ 30 fps + 1080p @ 25 fps, 1080p @ 60 fps + 1080p @ 25 fps
Maximum Front Camera	135° (D), 124° (H)
Lens Angle Rear Camera	125° (D), 110° (H)
Aperture	<i>f</i> /1.75
Video Compression	H.265
Display	Built-in 3" 854 x 480 IPS (In-Plane Switching) color touchscreen
OSD	Display time, date, etc.
Image Format	JPEG
Storage	eMMC (built in): 64 GB MicroSD card: 32 GB to 256 GB
Communication Module	Wi-Fi, Bluetooth
Sensor	G-sensor, GPS

Interfaces

Power Supply	USB 2.0
Audio Input	Mic
Audio Output	Built-in loudspeaker

General

Working Temperature	-20° to 65° C (-4° to 158° F)
Working Humidity	0% to 95%
Power Supply	5 VDC, 2 A
Power Consumption	Maximum 6 W
Dimension (L x W x H) (w/o Bracket)	100 mm × 85 mm × 38 mm (3.6" × 3.5" × 2.8")
Weight (Approximate)	150 g (0.33 lb)

J Cautions

Safety Instructions

These instructions are intended to ensure that users can use the product correctly to avoid danger or property loss.

Cautions

Injury or equipment damage may occur if any of the cautions are neglected.

- In the use of the dashcam, you must be in strict compliance with the local laws and regulations.
- You are recommended to install the dashcam near the rear mirror to ensure the dashcam can record with the best road view. DO NOT install the dashcam in a location that will block the driver's sight. Keep the user manual for future reference. See initial connection of dashcam in the user manual.
- Purchase the microSD (TF) card from a legal channel. To ensure safe and stable data transmission, it is recommended to use a microSD (TF) card of V30 or above.
- Format the new microSD (TF) card before using the card.
- To protect the microSD (TF) card from damage, shut down the dashcam before inserting and pulling out the microSD (TF) card.
- Operating temperature is from -20° to 70° C (-4° to 158° F).
- To protect the dashcam, DO NOT use it in high temperature, low temperature, or high-humidity environments. Protect the dashcam from rain and dust.
- This Manual is subject to updates. The dashcam functions may vary by model.
- The device's driving assistance function only sends alarm or warning to the driver and cannot replace the driver's judgment. DO NOT rely only on the driving assistance function.

K

	Solution
The dashcam falls off easily	• Clean the windshield before installation. • Check that the 3M adhesive pad is tightly adhered to the electrostatic film before installation.
Starting the dashcam failed	• Check whether the vehicle is started and the power supply is normal. • Check whether the car charger is tightly connected. • Restore to defaults: Hold the RESET button until the startup music is heard.
The dashcam powers off easily	• Make sure the power cord is in good condition. • Make sure the power cord is tightly connected to the appropriate interfaces.
Recording is abnormal and indicator is unlit	• Make sure that the dashcam started up successfully. Check that the microSD (TF) card is inserted. Check the microSD (TF) card status, e.g., its format and its lifespan. Change the microSD (TF) card if there are problems.
Recording is blurred	• Make sure the protective film has been removed. • Check that the windshield and the dashcam lens are clean.
Recording is muted	• Set audio settings on the device or turn on sound in the HikDashcam app. • Turn on sound through the dashcam's audio control function.
Dashcam reboots itself	• Check that the car charger is tightly connected. Check whether the car charger is equipped with a 5 VDC, ≥2 A power supply interface.
Mobile phone cannot connect to the dashcam	• Make sure the HikDashcam app is installed. Re-pair the dashcam to the app.
The mobile phone cannot display recordings	Check the player or your phone system. Connect the microSD (TF) card to your computer and display the recordings.
The microSD (TF) card is not detected when connecting the dashcam to a computer with the supplied power cord	The dashcam does not support data transmission, and the supplied power cord is only for charging. If you need to transfer data, connect the microSD (TF) card to your computer.

K Troubleshooting

Connecting to Wi-Fi takes a long time

Check interference from surrounding Wi-Fi signals. Use the dashcam in an environment where there is less interference.

Shut down unnecessary programs and apps on your phone to release some resources for the HikDashcam app, then reconnect the Wi-Fi.

Dashcam Wi-Fi password is forgotten

The default password is 1234567890. If you have revised the password, reset the password by doing the following:

1. Hold the **RESET** button on the dashcam until the startup music is heard, the dashcam will be restored to the defaults.
2. Go to the HikDashcam app's Wi-Fi connection interface.
3. Select the Wi-Fi SSID, and log in with the default password 1234567890.

No GPS signal

- Check whether the GPS function is enabled. Normally, the GPS function is enabled by default. Make sure the device is not in a location with a weak signal or no signal such as underground garage.
- Make sure there is no metal around the device because metal can interfere with the GPS signal.
- Make sure the location where the device is installed has good GPS reception.
